

SAME ROCK, NEW BLOCK!

God has answered our prayers for a permanent home where we can continue to help youth & families thrive through gospel-centered ministries.

- Our campaign is raising funding for two main components:
1. completing renovations: We are pursuing grants, tax credit programs, and community foundations to help with the financing of this part of the project.
 2. paying down/off the building: We have already made a \$150,000 payment thanks to the generosity of donors in the Founder's Phase. We also have the first 12 months of our \$3,000 monthly payment covered by a federal grant.

We are looking for support from our community in meeting our next building payment goal of \$150,000 by June!

BUILDING PAYMENT TIMELINE

Join us in this effort to bring a youth center to Quarryville!

Here are the areas that we anticipate creating in the new youth center. We hope this helps you get excited about the new opportunities that will come as we renovate this space!

COMMUNITY AREA *a designated space for relationships*

Having a community gives everyone a sense of belonging and identity. This space will be the entry point for our new building - giving families a place to mingle and connect with one another as a part of our community.

WELCOME AREA *a place to invite families into a space just for them*

Everyone deserves a warm welcome into this space designed just for them. This area will be an informational hub, featuring literature about the different services that Solid Rock provides. Additionally, it will serve as the place for staff to greet our students.

ADMIN & STAFF OFFICES *a space for preparing to serve*

Serving our community takes a team of dedicated leaders. In the past three years, we have added to our staff - and we will continue to do so! Having dedicated space to plan and work together is critical to accomplishing our mission.

CONFERENCE ROOM *a place to unite around common goals*

Collaboration is an important part of serving our community well. In this meeting room, we will partner with others, meet with families, and cultivate relationships with those in the community.

CAFE & KITCHEN *a place to serve our community in practical ways and unite over food*

Food has the power to bring people together, regardless of their backgrounds or beliefs. With the addition of a large cafe and commercial kitchen, Solid Rock can create a stronger, more connected community as we develop new programming that will utilize this new space.

MULTI-PURPOSE ROOM *a space for community events & student game times*

The purpose of every program is to bring people together. This will be a space that can serve multiple purposes, accommodating a variety of events and activities that can benefit the community and students alike.

OUTDOOR ACTIVITY SPACE *an extension of our indoor community spaces*

Relationships grow in all sorts of places and through a variety of activities. We envision this being a place for fun and games, like basketball and gaga ball, as well as a space for outdoor seating and fellowship.

STUDENT ACTIVITIES CENTER *an area to learn & grow through lessons & discussions*

We desire to be a hub for learning and personal and spiritual growth. The Student Activities Center is more than just a physical space. It will provide opportunities for youth to interact, build connections and relationships, and open up new doors for themselves.

CLASSROOM *a room for new opportunities still to be developed*

We are already dreaming about the program opportunities that will come with this new space. This could be a room for teaching, small group discussions, or community events - the possibilities are endless!
